OBJECTIVE

Software Developer specializing in Python and Odoo ERP (Sales, Inventory, Purchase modules). Skilled in full-stack development with Django, SQL, and Bootstrap, seeking to contribute as a Full Stack, Backend, or Python Developer.

WORK EXPERIENCE

Software Developer DREAMWAREZ

January, 2025 – Present

Pune, India

- Working on Odoo Technology using Python, focusing on module development and customization.
- Implemented and customized module such as Sales, Inventory, Purchase in Odoo 15,16,and 17.
- Create user role and demonstrated module functionalities to customers.
- Gained hands-on experience in end-to-end Odoo ERP implementation and integration.

PROJECTS

My Buddy - Pet Adoption Platform | *Python, Django, HTML, CSS, Bootstrap, MySql*

[GitHub](#)

- Built a responsive and dynamic website for pet adoption, featuring a secure user registration and adopt system.
- Leveraged Django for efficient backend logic and MySQL for database management.
- Integrated Bootstrap for mobile-friendly design, ensuring seamless user experience.
- Hosted project on GitHub and implemented Git for version control.

E-Commerce Website | *HTML, CSS, Bootstrap, Python, Django, SQL*

[GitHub](#)

- Developed a Django-based web application to provide a seamless e-commerce experience for users.
- Designed a responsive and user-friendly UI using HTML, CSS, and Bootstrap to enable product browsing and purchase functionality.
- Incorporated user authentication for secure login and registration.
- Hosted the project on GitHub and employed Git for version control to track development progress effectively.

TECHNICAL SKILLS

Programming Languages: Python, SQL, HTML, React (Beginner), Tailwind CSS (Beginner)

Frameworks & Tools: Django, Git

Development Tools: VS Code, SQL Workbench

EDUCATION

Sanjivani College Of Engineering *B.Tech in Computer Engineering*

CGPA : 7.56

June 2024

Sanjivani K.B.P Polytechnic *Diploma in Computer Technology*

65.35 %

April 2020

INTERNSHIP

Celebal Technology

May 2023 – Aug 2023

- * Completed intensive training in Python, focusing on Object-Oriented Programming concepts.
- * Gained hands-on experience in SQL for efficient database management and data querying.

TRAINING AND CERTIFICATION

Python Fullstack Web Development

June 2024 – Dec 2024

ITVedant Institute

- * Developed web apps using Python, Django, and integrated frontend with Bootstrap.

Technical Training

Oct 2023 – Dec 2023

Godrej Infotech

- * Mastered Python and SQL with hands-on project experience.

ACHIEVEMENTS

Awarded Certificate of Exceptional Performance (ET Campus Stars 2022-23) for ranking among India's brightest engineering talents.
